Performance figures are calculated in accordance with the Financial Services Council (FSC) standards. Where performance returns are quoted "After fees" then this assumes reinvestment of distributions and is calculated using exit prices which take into account management costs but not tax you may pay as an investor. Where performance returns are quoted "After fees and tax", they are calculated using exit prices which take into account management costs and taxes paid within the trust up to a maximum of 15%. Where performance returns are quoted "Before fees and tax", they exclude the effects of management costs and any taxes. In the case of the Pental Managed Cash Fund and the Pental Stable Cash Plus Fund all returns are calculated using the average of the daily distribution yields and assume monthly reinvestment of distributions. Past performance is not a reliable indicator of future performance.
