About the Fund

The Pendal MidCap Fund (**Fund**) is an actively managed portfolio of Australian mid cap shares.

Investment Return Objective

The Fund aims to provide a return (before fees, costs and taxes) that exceeds the Pendal MidCap Custom Index over the medium to long term. The suggested investment timeframe is five years or more.

Description of Fund

This Fund is designed for investors who want the potential for long term capital growth and tax effective income from a portfolio of primarily 40-60 Australian mid cap shares and are prepared to accept higher variability of returns. Pendal defines the mid cap universe to include companies ranked between 51 and 150 of the S&P/ASX 200 Index. The Fund may also invest in equivalent companies listed on the New Zealand Stock Exchange, hold cash and may use derivatives.

Pendal's investment process for Australian shares is based on our core investment style and aims to add value through active stock selection and fundamental company research. Pendal's core investment style is to select stocks based on our assessment of their long term worth and ability to outperform the market, without being restricted by a growth or value bias. Our fundamental company research focuses on valuation, franchise, management quality and risk factors (both financial and non-financial risk).

The Fund may have assets denominated in foreign currencies. This means that changes in the value of the Australian dollar relative to foreign currencies may affect the value of the assets of the Fund. The Fund's foreign currency exposure may be hedged from time to time, in whole or part.

Derivatives may be used to reduce risk and can act as a hedge against adverse movements in a particular market and/or in the underlying assets. Derivatives can also be used to gain exposure to assets and markets.

Investment Team

Pendal's Equity team is headed up by Crispin Murray who has extensive experience and a strong record in equities research. Andrew Waddington is the portfolio manager for the Fund.

A combination of the Australian equities large cap and small cap teams' research is used to construct the Pendal MidCap Fund.

Performance figures are calculated in accordance with the Financial Services Council (FSC) standards. Where performance returns are quoted "Post fees" then this assumes reinvestment of distributions and is calculated using exit prices which take into account management costs but not tax you may pay as an investor. Where performance returns are quoted "Pre fees and tax", they exclude the effects of management costs and any taxes. Past performance is not a reliable indicator of future performance.

If PFSL does so, it will have no other obligations in relation to these circumstances. The procedures, investment ranges, benchmarks and limits specified are accurate as at the date of this factsheet and PFSL reserves the right to vary these from time to time.
