About the Fund

The Pendal Global Emerging Markets Opportunities Fund (**Fund**) is an actively managed portfolio of global emerging market shares.

Investment Return Objective

The Fund aims to provide a return (before fees, costs and taxes) that exceeds the MSCI Emerging Markets (Standard) Index (Net Dividends) in AUD over the long term. The suggested investment time frame is seven years or more.

Description of Fund

This Fund is designed for investors who want the potential for long-term capital growth, diversification across a broad range of global emerging market shares and are prepared to accept high variability of returns. The Fund can invest in shares in a range of emerging markets and may also hold cash.

As manager of the Fund, J O Hambro Capital Management (**JOHCM**) investment process for global emerging market shares aims to add value through a combination of country allocation as well as individual stock selection. JOHCM's country allocation process is based on analysis of a country's economic growth, monetary policy, market liquidity, currency, governance/politics and equity market valuation. The stock selection process focuses on buying quality growth stocks at attractive valuations.

The Fund has assets that are denominated in foreign currencies. This means that changes to the Australian dollar relative to foreign currencies may affect the value of the assets of the Fund. The Fund's foreign currency exposure will generally not be hedged to the Australian dollar but JOHCM may do so from time to time. JOHCM does not intend to use currency trading as an additional source of Fund returns.

Derivatives may be used to reduce risk and can act as a hedge against adverse movements in a particular market and/or in the underlying assets. Derivatives can also be used to gain exposure to assets and markets.

Investment Manager

The portfolio is managed by J O Hambro Capital Management Limited, a wholly-owned subsidiary within the Pendal Group.
