

Regnan Global Equity Impact Solutions Fund

Class R

Factsheet | As at 29 February 2024

ARSN: 645 981 853

About the Fund

Aims to generate long-term outperformance by investing in mission-driven companies that create value for investors by providing solutions for the growing unmet sustainability needs of society and the environment, using the United Nations Sustainable Development Goals (SDGs) as an investment lens.

Underpinned by the Regnan SDG taxonomy, the team has built a comprehensive proprietary framework to identify companies that provide solutions to the environmental and societal challenges facing the world.

A high conviction, diversified, global multi-cap portfolio with low portfolio turnover and a strong emphasis on driving impact through engagement.

Investment Objective

The Fund aims to provide a return (after fees but before costs and taxes) that exceeds the MSCI ACWI IMI Index in AUD over rolling 5 year periods.

Description of Fund

This Fund is designed for investors who are seeking an investment in global shares with an investment timeframe of 5 years or greater and are prepared to accept higher variability of returns.

The Fund will invest in shares of companies which we believe aim to generate positive, measurable social and environmental impact, alongside a financial return. The Fund will generally have less than 50 stocks and is benchmark agnostic.

The Fund will not invest in companies which directly:

- extract or explore for fossil fuels (specifically, coal, oil and natural gas); or
- produce tobacco (including e-cigarettes and inhalers); or
- manufacture controversial weapons (including cluster munitions, landmines, biological or chemical weapons, nuclear weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments).

The Fund will also not invest in companies which derive 10% or more of their gross revenue directly from:

- fossil fuel-based power generation, or fossil fuel distribution or refinement (coal, oil and natural gas)*;
- the production of alcoholic beverages;
- manufacture, ownership or operation of gambling facilities, gaming services or other forms of wagering;
- manufacture of non-controversial weapons or armaments;
- manufacture or distribution of pornography; and
- uranium mining for the purpose of nuclear power generation.

For more information on how these exclusions are applied, refer to section 5 'How we invest your money' of the Fund's Product Disclosure Statement at www.pendalgroup.com/RegnanGlobalEquityImpactSolutionsFundClassR-PDS

Performance

(%)	Total Returns		Benchmark
	(post-fee)	(pre-fee)	Return
1 month	4.99	5.07	5.76
3 months	14.53	14.79	11.90
6 months	9.00	9.49	10.57
1 year	19.92	21.00	25.87
2 years (p.a)	8.27	9.24	11.61
3 years (p.a)	4.52	5.47	12.41
Since Inception (p.a)	4.33	5.27	12.23

Source: Pental as at 29 February 2024.

"Post-fee" returns assume reinvestment of distributions and is calculated using exit prices. "Pre-fee" returns exclude the effects of management costs and any taxes. Returns for periods greater than one year are annualised. Fund inception: November 2020.

Past performance is not a reliable indicator of future performance.

About Regnan

Regnan is a specialist business unit within Pental and a responsible investment leader with a long and proud heritage providing our investment teams with insight and advice on important themes relating to environmental, social and governance (ESG) issues, including impact investment, engagement and advocacy.

Regnan's pioneering analysis has changed the way investors and businesses think about value creation and their wider responsibilities to society. Regnan remains committed to undertaking engagement that contributes to growing the market for impact investments.

CERTIFIED BY RIAA

The Regnan Global Equity Impact Solutions Fund has been certified by the Responsible Investment Association Australasia according to the strict operational and disclosure practices required under the Responsible Investment Certification Program. See www.responsibleinvestments.com.au for details.

The Responsible Investment Certification Program does not constitute financial product advice. Neither the Certification Symbol nor RIAA recommends to any person that any financial product is a suitable investment or that returns are guaranteed. Appropriate professional advice should be sought prior to making an investment decision. RIAA does not hold an Australian Financial Services Licence.

Fees and Costs

You should refer to the latest Product Disclosure Statement for full details of the ongoing fees and costs that you may be charged.

Management fee ¹	0.90%
-----------------------------	-------

¹ This is the fee we charge for managing the assets and overseeing the operations of the Fund. The management fee is deducted from the Fund's assets and reflected in its unit price.

Other Information

Fund size (as at 29 February 2024)	\$181 million
Date of inception	30 November 2020
Minimum investment	\$25,000
Buy-sell spread ² For the Fund's current buy-sell spread information, visit www.pendalgroup.com	
Distribution frequency	Annually
APIR code	PDL4608AU

² The buy-sell spread represents a contribution to the transaction costs incurred by the Fund, when the Fund is purchasing and selling assets. The buy-sell spread is generally incurred whenever you invest or withdraw funds, and may vary from time to time without notice.

Portfolio analysis

Top 10 Holdings (as at 29 February 2024)

Stock	Impact Solution	Absolute
Munters Group	Munters is the pioneer and market leader in desiccant dehumidification (c.50% market share), a key 5.4 technology required for lithium ion battery plants. Manufacturing of lithium-ion batteries is a highly sensitive process requiring strict temperature and dryness parameters (<1% relative humidity) to ensure safety, quality and production yield. Munters have also developed a patented technology for data centre cooling (SyCool) providing significant energy and water savings which is driving strong order intake and market share gains.	5.8%
Horiba Ltd	Horiba has an 80% market share in emission measurement systems. Its automotive test division (c. 40% of sales) is expected to be a significant beneficiary of the introduction of the worldwide harmonized light vehicle test procedure and real driving emissions. Horiba also provides instruments and systems for applications outside of autos, including process and environmental monitoring, in-vitro medical diagnostics, semiconductor manufacturing and metrology.	5.5%
Ecolab Inc	Ecolab is a leader in integrated solutions to improve water and energy efficiency, while at the same time improve sanitation. In 2019, Ecolab helped its customers save 206 billion gallons of water, equivalent to the annual drinking water needs of 712 million people, save 28 trillion Btu of energy and avoid 1.5 million metric tonnes of greenhouse gas emissions.	5.1%
Xylem	Xylem is a leading provider of water equipment and solutions that enable water reuse and conservation to mitigate water scarcity, reduce water losses and optimize water system assets to improve water affordability. Freshwater and wastewater systems in developed countries have suffered decades of underinvestment, with as much as half of water leaking in many cities. In developing countries, improved sanitation means new infrastructure. As well as being a leader in water equipment, Xylem is notably providing innovative digital solutions to enable smart management of water systems	5.1%
PTC Inc	Productivity growth across OECD countries was lower in the decade leading up to 2016 than it was in any other decade from 1950 (UN). While technological progress and innovation has continued, the adoption of Industry 4.0 solutions with potential to deliver significant productivity improvements remains low, particularly from small and medium sized enterprises where the costs of upgrading can be prohibitive. PTC's solutions drive digital transformation, which reduces waste and scrap in the products they design, creates efficiencies in their manufacturing processes, and optimizes the operations of their customers' processes. PTC provides global leading software solutions across the life cycle of products through computer aided design, product life cycle management, industrial IoT and augmented reality. PTC solutions increase productivity and efficiency of R&D by reducing design time by up to 30%, make manufacturing more efficient and less wasteful with up to 30% reduction in prototypes, thereby reducing costs and raw material use, and reduce the time to market by up to 57%. PTC is also improving access to Industry 4.0 solutions for smaller enterprises through the recent addition of multi-tenant SaaS based CAD (Onshape) and PLM (Arena).	5.0%
YDUQS Participacoes	YDUQS is the second largest post-secondary education provider in Brazil, serving over 700k students. It provides a broad range of undergraduate, masters and other related programmes. The company is also the second largest player in medical courses. Access to higher education is central to Brazil's economic development and is regarded as a key catalyst for social mobility.	4.9%
Bank Rakyat Indonesia	Over 200 million Indonesians live on less than \$4.50 per day, without salaries or collateral, these individuals are considered too risky for loans or live in locations too remote for the reach of traditional financial services providers. Despite this, over 56 million Micro Small Medium Enterprises (MSME) contributed greater than 50% GDP. In Indonesia in particular, only about 25% of SME's have access to lending. Bank Rakyat is helping fill this gap in the Indonesian market.	4.7%
Stevanato Group	Biologic medicines, which range from antibodies to gene therapies, represent approximately 30% of 4.5 the pharma industry today. However, growth rates of biologic modalities are significantly in excess of the market, given their unprecedented ability to treat largely unmet disease areas, such as non-communicable diseases. Stevanato is the leading provider of primary container solutions, such as such as pre-fillable syringes and vials, which are critical for the safety, efficacy and quality of biologic therapeutics.	4.6%
ANSYS Inc	As a global leader in simulation solutions, ANSYS enables faster R&D, makes manufacturing more efficient and less wasteful, thereby reducing costs, as well as permitting environmentally-friendly specifications to be embedded at the design phase of product. Its simulation software is used in developing impact solutions such as electric and autonomous vehicles, renewable energy and introducing environmental data into the choice of materials.	4.5%
Lonza Group AG	Biologic, large-molecule drugs, currently grow twice as fast as their small-molecule counterparts, owing to their exceptional efficacy ability to address previously untreatable conditions, such as cancers and autoimmune diseases. However, the manufacturing of biologics is complex, expensive and resource-intensive. As the world's leading contract manufacturing and development company, Lonza allows biotech companies to outsource that process manufacturing process, thereby helping them to develop more potent, complex medicines at lower cost and increased speed-to-market.	4.2%

Risks

An investment in the Fund involves risk, including:

- **Market risk:** The risk associated with factors that can influence the direction and volatility of an overall market, as opposed to security-specific risks. These factors can affect one country or a number of countries.
- **Security specific risk:** The risk associated with an individual security.
- **International investment risk:** The risk arising from political and economic uncertainties, interest rate movements and differences in regulatory supervision associated with international investments.
- **Emerging markets risk:** The Fund may make investments that provide exposure to emerging markets. Emerging markets are generally considered riskier than developed markets due to factors such as lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention (including default and currency intervention), currency volatility and increased legal risk. Emerging market investments therefore may experience increased asset price volatility and face higher currency, default and liquidity risk.
- **Concentrated portfolio risk:** The Fund's investment strategy of seeking to generate high returns by investing in a concentrated portfolio of global shares may make the Fund more volatile than a diversified global share fund with a larger number of shares. This means there is a greater risk of negative returns, particularly over the short to medium term.
- **Currency risk:** Currency exchange rate fluctuation risk arising from investing across multiple countries.
- **Class risk:** The Fund has been established as a separate class of units in the Scheme. As the assets are held on trust for all investors, there is a risk that investors of one class, may be exposed to liabilities of another class of units and they could lose some or all of their investment in the Fund. There is also a risk that in the event of an insolvency, the assets of the Fund could be made available to creditors of another class of units of the Scheme.

Please read the Fund's Product Disclosure Statement (**PDS**) for a detailed explanation of each of these risks available on the Pental's website.

This factsheet has been prepared by Pental Fund Services Limited (**PFSL**) ABN 13 161 249 332, AFSL No 431426 and the information contained within is current as at the date of this factsheet. It is not to be published, or otherwise made available to any person other than the party to whom it is provided.

PFSL is the responsible entity of, and issuer of units in, the Fund offered in this factsheet. A product disclosure statement (**PDS**) is available for the Fund and can be obtained by calling 1300 346 821 or visiting www.pentalgroup.com. The Target Market Determination (**TMD**) for the Fund is available at www.pentalgroup.com/tdo. You should obtain and consider the PDS and TMD before deciding whether to acquire, continue to hold or dispose of units in the Fund. An investment in the Fund is subject to investment risk, including possible delays in repayment of withdrawal proceeds and loss of income and principal invested.

"Regnan" is a registered trademark of Pental Group Limited (PGL) and is a standalone responsible investment business division of PGL. The Fund is issued by Pental Fund Services Limited ABN 13 161 249 332 AFS Licence 431426 (PFSL). PFSL has appointed J O Hambro Capital Management Limited to manage the assets of the Fund.

This factsheet is for general information purposes only, should not be considered as a comprehensive statement on any matter and should not be relied upon as such. It has been prepared without taking into account any recipient's personal objectives, financial situation or needs. Because of this, recipients should, before acting on this information, consider its appropriateness having regard to their individual objectives, financial situation and needs. This information is not to be regarded as a securities recommendation.

The information in this factsheet may contain material provided by third parties, is given in good faith and has been derived from sources believed to be accurate as at its issue date. While such material is published with necessary permission, and while all reasonable care has been taken to ensure that the information in this factsheet is complete and correct, to the maximum extent permitted by law neither PFSL nor any company in the Pental group accepts any responsibility or liability for the accuracy or completeness of this information.

Performance figures are calculated in accordance with the Financial Services Council (**FSC**) standards. Where performance returns are quoted "Post fees" then this assumes reinvestment of distributions and is calculated using exit prices which take into account management costs but not tax you may pay as an investor. Where performance returns are quoted "Pre fees and tax", they exclude the effects of management costs and any taxes. Past performance is not a reliable indicator of future performance.

If market movements, cash flows or changes in the nature of an investment (e.g. a change in credit rating) cause the Fund to exceed any of the investment ranges or limits specified, this will be rectified by PFSL as soon as reasonably practicable after becoming aware of it. If PFSL does so, it will have no other obligations in relation to these circumstances. The procedures, investment ranges, benchmarks and limits specified are accurate as at the date of this factsheet and PFSL reserves the right to vary these from time to time.
